CADLAB

Fast Track Symposium 

Clinics in the *fast lane*

Thursday, 4. May

Block I: Professional Political Topics

- What changes are we facing with increasing outpatient care?
- Orthopedic clinics in transition - Where do we stand today?
- Fast Track - Dreams and reality. Process optimization in hospitals
- Dinner and discussion

Friday, May 5

Block II: Pre-OP (before the hospital stay)

- First steps in the process
- Which hospital setting is needed
- Better in - better out. Fit for the FastTrack OP

Block III: During OP (during the hospital stay)

- Fast Track Live Surgery - Anesthetic and Surgical Aspects
- What role does the approach play?
- Optimal Fast Track Hip Approach
- DAA 2.0 The solution for the anterior approach
- The Fast Track Knee
- Robotics & Fast Track

Block IV: Post OP (after the hospital stay)

- Which rehab is the right one? Outpatient vs Inpatient
- What can outpatient rehab do?
- Digital tools in post-treatment

Applied for certification by the
North Rhine Medical Association
